Sub.: IREDA Scheme for providing Term Loans to Solar Manufacturing Projects reg.

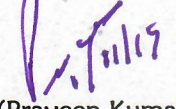

Dear Shri Swain,

We understand that SECI has come out with some solar tenders linked with setting-up of indigenous Solar Manufacturing facilities, apart from being in the process of coming out with other solar and wind power tenders.

In this regard, we are pleased to inform you that IREDA, being a premier Renewable Energy Financing Institution, provides term loan assistance towards setting-up of Solar Manufacturing Plants, as well as for RE power projects. We would be happy to examine any such proposal from a qualified SECI bidder subject to the same meeting our eligibility criteria based on our norms. We would be pleased if you can make this information known in your bids so that your prospective bidders would have comfort of availability of loan finance for their projects.

With regards,

Yours Sincerely,

(Praveen Kumar)
