**1.0 INTRODUCTION**

- 1.1 Damodar Valley Corporation (DVC) is a government-owned power generator which operates in the Damodar River area of West Bengal and Jharkhand states of India. The statutory corporation operates both thermal power stations and hydel power stations under the ownership of Ministry of Power, Government of India. DVC is headquartered in the Kolkata city of West Bengal, India.
- 1.2 DVC strongly believes that excellence in the environmental fields is of prime importance. DVC strives to work with environmental issues in a consistent & systematic manner. The floating Solar PV would not only be a leap towards the use of Green Energy for DVC but also be means of self-reliant and economical energy which would capitalize the abundance of solar energy.
- 1.3 The selection of the Contractor for the “Tender for setting up of grid connected Floating Solar PV (FSPV) Plants on Raw Water Reservoirs of DVC Thermal Power Plants at Koderma, Mejia and Raghunathpur Thermal Power stations” has been entrusted to Solar Energy Corporation of India Limited (A Government of India Enterprise) incorporated under the Companies Act, 2013, having its Registered Office at 6<sup>th</sup> Floor, Plate-B, NBCC Office Block Tower-2, East Kidwai Nagar, New Delhi-110023 (hereinafter referred to as ‘SECI’ or Project Management Consultant (PMC)). 2	SITE – 2	14.0	MEJIA, WEST BENGAL
3	SITE – 3	10.0	RAGHUNATHPUR, WEST BENGAL

2.2 Eligibility Conditions set forth in the tender document are as per 30 MW (AC) cumulative capacity basis only. Bidders are required to quote accordingly for the complete cumulative capacity of 30 MW (AC). The total capacity of 30 MW will be awarded to a single successful bidder only selected after e-RA.

2.3 However, there will be separate Contract Agreements based on separate sites with the same successful bidder. e-RA will be done on the total cumulative capacity of 30 MW only. The total price of EPC and O&M arrived after e-RA, will be converted to the per MW price. Based on the per MW price arrived, the per site project EPC and O&M price will be calculated by multiplying the per MW price with the respective site capacity. In the same way, the respective site O&M prices will be calculated. Accordingly, 03 different EPC and O&M NOA/Contract Agreement will be released for the respective site by the owner to the single successful bidder only.

- Evaluated Bid Values (EBV) for all the Bidders shall be compared to determine the lowest Evaluated Bid Value (EBV) as given under Schedule No- 5 Format of Schedule of Rates & the lowest (L1) evaluated Bid as such, will be selected for the Notification of Award (NOA) subject to the successful bidder selected after E-Ra (Clause 32.4.2).
- The mentioned Total Evaluated Bid Value will be considered up to 2 decimal places only.
- Bidder with the Total lowest EBV shall be L-1, Bidder with Second lowest EBV shall be L-2 & so on subject to the successful bidder selected after E-Ra (Clause 32.4.2)
- The Total Evaluated Bid Value shall be inclusive of Goods & Service Tax (GST) as quoted by the bidder. The award shall be placed Inclusive of GST with taxation bifurcation separately indicated as submitted by the successful bidder in the SOR format.
- Billing Break-up (BBU):

--	--	----------------------	---------------------

## Tender for setting up of grid connected 30 MW Floating Solar PV (FSPV) plants on raw water reservoirs of DVC Thermal Power Plants at Koderma, Mejia and Raghunathpur Thermal Power stations

For each item of SOR 1 to 4, the BBU shall be prepared in the same SOR format (Item name, UoM, Quantity, unit Ex Works price, GST, Total price etc) and the sum of all billing break-up item prices shall be equivalent to the each respective SORs item price with discounted rate of e-Reverse auction (If applicable). No BBU items can be created at the BBU stage for the SOR line items which have been quoted by the contractor as Zero during the bidding stage.

The Contractor would be required to provide detailed Bill of Quantity (BOQ) along with the break-up of Contract Price (including GST) and HSN code of the respective goods/services, which should match with the Price Quoted by the Contractor in its Price Bids and accepted by the PMC. This will be used by the Owner at the time of payment to the Contractor. Accordingly, bidders should diligently quote the GST component in the bid.

Owner shall reimburse the amount of GST as per the rates mentioned by Contractor in the detailed BOQ. In case of any statutory variation in GST during the currency of the Contract, same will be reimbursed to the Contractor subject to the treatment provided under clause No 51 of the GCC of the Bidding document, only in respect of the items/quantity which have been mentioned by the Contractor in the detailed BOQ.

### 32.4.2 Procedure for e- Reverse Auction (e-RA):

1. The e-auctioning shall be conducted on <https://www.bharat-electronictender.com>. E-Auctioning shall be carried out on the day as intimated by SECI to the eligible bidders.
2. After financial bid evaluation, the bidders shall be shortlisted in the ascending order of price bid quoted. Keeping minimum 03 Bids eligible for e-RA, Total no of bids will be reduced by a factor 1/2 and resultant as such, will be eligible for e-RA. Decimal Nos will be corrected to next whole No & will be counted accordingly for the e-RA. If the price bid quoted is same for two or more bidders, then all the bidders with same price bid shall be considered of equal rank/standing in the order.

Ex: (1) No of Bids after arranging the Bids in ascending order = 3, so total No of Bids eligible for e-RA in this case =  $3 \times \frac{1}{2} = 1.5$ , but as the minimum 03 bids needs to be kept, so in this case 03 bids will be eligible for e-RA.

(2) No of Bids after arranging the Bids in ascending order = 7, so total No of Bids eligible for e-RA in this case =  $7 \times \frac{1}{2} = 3.5 = 4$ , rounding off to the next whole No. So, in this case 04 bids will be there for e-RA.

In case of substantially low response by the bidders & the total no of responsive bids to be less than 03 (Three), Owner/PMC reserves the sole discretion & all rights of proceeding/Non-proceeding with e-RA, against the management approval.

## Tender for setting up of grid connected 30 MW Floating Solar PV (FSPV) plants on raw water reservoirs of DVC Thermal Power Plants at Koderma, Mejia and Raghunathpur Thermal Power stations

- At least one week prior to e-RA, an advance intimation regarding the date and time of the e-RA will be sent by email to all bidders whose technical & financial bids have been opened and found to be qualified. However, from this advance intimation it shall not be construed by the bidders that they have been shortlisted for e-RA. Further at least two hours before the schedule start time of e-Auctioning, a system generated email for invitation for e-Auctioning will be sent to all those bidders only who have been shortlisted based on the criteria mentioned.
- Shortlisted bidders for e-Auctioning will be able to login into the ISN website of auctioning 15 minutes before the start time of e-auctioning.
- At the start of e-auctioning process, the bid along with the list of short-listed bidders shall be displayed with their pseudo names as their first round bid along with the NPV value of O&M quotation per year submitted and calculated as per SOR. The auctioning shall be on both the EPC price and NPV value of the O&M quoted by the bidder.

The minimum decrement step for e-Auctioning is in the multiples of **Rs. 10, 00,000/- (INR Ten lacs only)** in EPC & NPV of O&M Price bid (Firm value of the financial proposal as the sum of individual bid value of supply, erection and civil works including GST & NPV value of O&M including GST), i.e. each decrement shall be in multiples of Rs. Rs.10, 00,000/- (INR Ten Lacs only). At the end of the e-RA, the final discount offered by the bidder, in the form of price reduction so offered on the EPC & NPV value of O&M price, shall be applied proportionately to all of the SOR Line items price (EPC Price + NPV of O&M price) quoted by the bidder initially in the financial bid. Accordingly, the revised reduced price of all of the SOR line items of the EPC & NPV of O&M will be derived. This proportionate price reduction will be applicable on both the EPC price & NPV value of O&M price, on which the e-RA has been actually conducted.

- While applying the price reduction obtained after e-RA, all the SOR line items of the Schedule Nos 1,2 & 3/ SOR 1,2 & 3 (DSI Price of Supply & Service or the EPC price) can be straight away reduced by applying the % reduction factor uniformly on all the line items of Schedule Nos 1,2 & 3/ SOR 1,2 & 3. Same way, the NPV value of each year line item of O&M value under Schedule No 4/SOR – 4, can also be straight away reduced by applying the % reduction factor uniformly on all the line items of Schedule No 4/SOR – 4. However, as the reduced line items so arrived will be the NPV values of each year O&M value, so for the purpose of award, absolute values of each year O&M price line item wise will then be back calculated by dividing the finally arrived (After applying % reduction factor post e-RA) yearly reduced NPV values by the respective year “Discounting Rate for NPV calculation” & thereby, the absolute value of O&M price will be calculated on yearly basis. The award will be placed on the absolute value of O&M price including GST only and not on NPV of O&M price. NPV values are considered for the purpose of price bids evaluation only.**
- L2, L3, L4.... LN Bidders have to mandatorily apply their decrements suitably so as to beat the L1 price in the first go itself, else system will not accept their respective Bids. However, at no stage, increase in EPC & NPV of O&M price will be permissible.

## Tender for setting up of grid connected 30 MW Floating Solar PV (FSPV) plants on raw water reservoirs of DVC Thermal Power Plants at Koderma, Mejia and Raghunathpur Thermal Power stations

- During E- Auctioning, no revision in total price for which a bidder is considered qualified after evaluation of Technical Bid is allowed.
  - The initial auctioning period will be of one (01) hour with a provision of auto extension by eight minutes from the scheduled/ extended closing time if any fresh bid is received in last eight minutes of auctioning period or extended auctioning period. If no valid bid is received during last eight minutes of auctioning period or extended auctioning period, then the e-auctioning process will get closed.
3. Following information will be displayed in the bidder's bidding window:
- First round EPC and NPV of O&M price as their start price initially and thereafter last quoted EPC & NPV of O&M Price.
  - The auction will be conducted on the total sum of EPC & NPV of O&M price.
  - The list of last quoted EPC & NPV of O&M price (i.e. last Bid Value) of all bidders with their Pseudo Identities and their time of quote.
4. Selection of Successful Bidders
- Post E-Ra, the bidders shall be selected in the ascending order with lowest quoted Evaluated Bid value (EPC + NPV of O&M price) (being L1).
- a. The final price will be arrived by adding the EPC price and the NPV of O&M price (as a result of e-auctioning process)
  - b. The bidder with lowest Evaluated Bid value (EBV) at the end of E-Auctioning will be considered L1.
  - c. In case of tie in the final EBV after E-Ra, (i.e. the sum of their last quoted discounted EPC price and the NPV of O&M price), among two or more bidders being the same at the end of e-Reverse Auction, they will be considered in the chronological order of their last bid with preference to the bidder who has quoted his last bid earlier than others.
  - d. In the above case, if the time of quote also become exactly same among the bidders at a tie, then the ranking among these bidders shall be done as follow:
    - The bidder who has quoted lowest Total Price in their Price BID before commencement of E-Auction shall be considered as L-1.
    - If there is also a tie among any of these bidders, then L-1 will be the bidder who has the highest average annual turnover as per the documents submitted as a part of their bid.
5. At the end of selection process, a Notification of Award (NOA) will be issued to the successful bidder (L1).

## 5.3 Special Note on Security and Transparency of Bids

Security related functionality has been rigorously implemented in ETS in a multidimensional manner. Starting with 'Acceptance of Registration by the Service Provider', provision for security has been made at various stages in Electronic Tender's software. Specifically, for Bid Submission, some security related aspects are outlined below:

As part of the Electronic Encrypted® functionality, the contents of both the 'Electronic Forms®' and the 'Main-Bid' are securely encrypted using a Pass-Phrase created by the Bidder himself. Unlike a 'password', a Pass-Phrase can be a multi-word sentence with spaces between words (e.g. I love this World). A Pass-Phrase is easier to remember, and more difficult to break. It is mandatory that a separate Pass-Phrase be created for each Bid-Part. This method of bid-encryption does not have the security and data-integrity related vulnerabilities which are inherent in e-tendering systems which use Public-Key of the specified officer of a Buyer organization for bid-encryption. Bid-encryption in ETS is such that the Bids cannot be decrypted before the Public Online Tender Opening Event (TOE), even if there is connivance between the concerned tender-opening officers of the Buyer organization and the personnel of e-tendering service provider.

**CAUTION:** All bidders must fill Electronic Form for each bid-part sincerely and carefully, and avoid any discrepancy between information given in the Electronic Form and the

corresponding Main-Bid.

**If any variation is noted between the price mentioned in the Electronic Form and the Main Bid (Refer Clause above for the definitions of Electronic Form and Main Bid), the price mentioned in the Main Bid shall prevail.**

**In case of any discrepancy between the values mentioned in figures and in words, the value mentioned in words will prevail.**

***The bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted into the 'Time Locked Electronic Key Box (EKB)' after the deadline of Bid Submission and before the commencement of the Online TOE of Technical Bid.*** The process of submission of this Pass-Phrase in the 'Time Locked Electronic Key Box' is done in a secure manner by first encrypting this Pass-Phrase with the designated keys provided by the PMC.

Additionally, the bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted to PMC in a sealed envelope before the start date and time of the Tender Opening Event (TOE).

#### 5.4 Other Instructions

For further instructions, the vendor should visit the home-page of the portal <https://www.bharat-electronictender.com>, and go to the User-Guidance Centre

The help information provided through 'ETS User-Guidance Centre' is available in three categories – Users intending to Register/ First-Time Users, Logged-in users of Buyer organizations, and Logged-in users of Supplier organizations. Various links (including links for User Manuals) are provided under each of the three categories.

**Important Note:** It is strongly recommended that all authorized users of Supplier organizations should thoroughly peruse the information provided under the relevant links, and take appropriate action. This will prevent hiccups, and minimize teething problems during the use of ETS.

#### 5.5 Seven CRITICAL DO'S AND DON'TS FOR BIDDERS

Specifically, for Supplier organizations, the following 'Seven KEY INSTRUCTIONS for BIDDERS' must be assiduously adhered to:

1. Obtain individual Digital Signing Certificate (DSC or DC) of Class III well in advance of your tender submission deadline on ETS.
2. Register your organization on ETS well in advance of the important deadlines for your first tender on ETS viz 'Date and Time of Closure of Procurement of Tender Documents' and 'Last Date and Time of Receipt of Bids'. Please note that even after acceptance of your registration by the Service Provider, to respond to a tender you will also require time to complete activities related to your organization, such as creation of -- Marketing Authority (MA) [ie a department within the Supplier/ Bidder Organization responsible for responding to tenders], users for one or more such MAs, assigning roles to them, etc. It is mandatory to create at least one MA. This unique feature of creating an MA enhances security and accountability within the Supplier/ Bidder Organization.
3. Get your organization's concerned executives trained on ETS well in advance of your first

30 MW (AC) floating Solar PV Power Plant Project	<b>Tender No.</b> SECI/C&P/PMC/11/0002/2022-23	<b>ITB</b> Page 42 of 45	<b>Signature of Bidder</b>
--	---	-----------------------------	----------------------------

tender submission deadline on ETS

4. For responding to any particular tender, the tender (ie its Tender Search Code or TSC) has to be assigned to an MA. Further, an 'Official Copy of Tender Documents' should be procured/ downloaded before the expiry of Date and Time of Closure of Procurement of Tender Documents. **Note:** Official copy of Tender Documents is distinct from downloading 'Free Copy of Tender Documents'. Official copy of Tender Documents is the equivalent of procuring physical copy of Tender Documents with official receipt in the paper-based manual tendering system.
5. Submit your bids well in advance of tender submission deadline on ETS (There could be last minute problems due to internet timeout, breakdown, etc)
6. It is the responsibility of each bidder to remember and securely store the Pass-Phrase for each Bid-Part submitted by that bidder. The bidders are required to submit correct, valid and operative Pass-Phrase to decrypt either Technical Bid Part or Financial Bid Part in a separate sealed envelope before due date and time of submission of bid. In the event, the bids are not opened with the pass-phrase submitted by bidder, PMC may ask for re-submission/ clarification for correct pass-phrase.
