QUALITY, ENVIRONMENT, HEALTH AND SAFETY (QEHS) POLICY

SECI aims to be a global leader in providing Renewable Energy and Energy Storage products, services and solutions to power utilities, customers and Renewable Energy markets.

SECI assures excellence in products & services and commits to maintain the same in conformity with the National & International Standards and the applicable legal and Regulatory Framework.

SECI commits to perform its activities and services in an efficient, effective & environment-friendly manner with safe, secure and optimal utilization of RE resources. To protect the environment through promotion, generation and increasing use of different types of Renewable Energy Technologies and thereby contributing to a sustainable future is the core of SECI's endeavour.

SECI commits to manage its activities and services in order to anticipate and prevent circumstances that might result in occupational injury, ill health, or adverse environmental impact.

SECI gives its highest priority to prevent occupational injuries and illnesses by assuring safe, secure and healthy work environment to its employees, customers and all other stakeholders by assuring the effective participation of its employees in decision making and minimizing the "Hazards, Risk and adverse Environmental impacts" due to its operations, product and services.

SECI assures confidentiality, integrity, security and availability of the documented information to build trust, transparency and satisfaction in our employees, customers and all other stakeholders.

SECI shall comply with all the applicable requirements relating to IMS (QMS, EMS, OH&SMS) and will set objectives to improve our QEHS performance.

SECI will communicate and make available our QEHS policy and practices to its employees, customers and all other stakeholders and will regularly engage them to ensure that the QEHS policy and practices are enforced and constantly improved.

18th January 2021

Chairman & Managing Director
