

MD, SECI participating in a Panel Discussion on "Emerging Areas in India's RE Sector: Opportunities for Global RE Developers & Investors" at Dubai Expo.

SECI's role in achieving Government of India's Renewable Energy vision have been highlighted with focus on the new and innovative areas of RE technologies that SECI is working on. Cohesive policies and regulatory support with a conducive business environment have emerged as key areas to propel the growth of new technologies.

SECI's role as a power procurement intermediary offering payment security to investors and SECI's transparent bidding process for selection of projects have been well appreciated.
